Wash & wear made easy

Front load washers

Front load washers tend to be more water and energy efficient than top load washers, and are also gentler on your clothes as there's no agitator to snag on. Because the door is on the front it can neatly fit under a bench, or you can stack a dryer on top to save room. Front load washers come in a variety of sizes from 7kg up to a large 10kg, and are ideal for apartments that have limited space.

Model: FS9606AS 174734 **Eam flybuys**

An essential part of every new home is a modern kitchen and there are 4 main appliances you need to consider when designing your new dream kitchen.

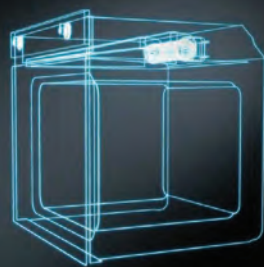

An Oven, a Cooktop, a Rangehood and a Dishwasher.

The first step is to make a wish list and how it fits in the design of your kitchen, this is where a Kitchen Designer comes in. Noel Leeming has a number of tools available to help you through this process but the easiest thing to do would be to visit one of our Built-in Cooking Centres with your Kitchen Designer so you can view

a range of brands on show such as Smeg, Fisher & Paykel and Westinghouse. When choosing kitchen appliances, you would want everything to match and more importantly, you would want everything to work together with ease. Our Built-in Cooking specialists can help you put together an appliance package, which suits your budget and lifestyle.

TIP TWO: SELECT YOUR APPLIANCES EARLY

Select your appliances early on in the design process. Once you've worked through the layout, appliance selection is the natural next step. If you're not sure on where to go and what to look at, talk to your designer or appliance specialist so you can talk through what will work best for the space.

FISHER & PAYKEL

KITCHEN DESIGN ADVICE

Cube Dentro, international award winning design studio based in Auckland provide their top tips on Kitchen Design.

LEONIE HAMILL | MELANIE JOHN

Director/Certified Kitchen Designer | Certified Kitchen Designer

Cube dentro were recent recipients of the prestigious German Design award, along with various other New Zealand design award accolades. They were also the finalists of the international society of British interior design and London kitchen & bathroom awards.

TIP THREE: QUALITY OVER COST

While budget is a consideration for all projects, we strongly suggested you research the quality, durability and warranties of your products and surfaces. Quality material, appliances and hardware are worth the investment and make all the difference in the long run. It is worth spending that little extra on a kitchen upfront that is crafted with products that will stand the test of time.

TIP ONE: AGREE THE LAYOUT BEFORE SELECTING COLOURS, MATERIALS AND FINISHES

It can be hard not to get caught up in how your kitchen is going to look – to most people, that's the most fun part of the process! But the most critical step of the kitchen design process is the spatial planning, the layout and how your kitchen will function. Take note of how you move around your current kitchen and what works and what doesn't work for you and your household.

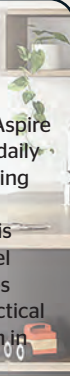

Cook smart

New Aspire Range

Westinghouse's new Aspire range will help make daily life a little easier, offering innovations for home cooks. Central to this is the dark stainless steel trend, which combines the premium and practical Westinghouse kitchen in a fresh new finish.

Benefits of AirFry

You are now able to air fry in your oven, losing the need for a bench top appliance. By using the circulation of hot air, air frying cooks the outside of your food first which creates a crispy outer layer and keeps the inside soft, similar to deep frying but you are cooking with air not oil.

- 1 tbsp. curry
- ½ bunch of parsley
- 120 g jasmine rice

Method

1. Place water in a pan and bring to the boil. Add the rice and boil for approx. 20-25 minutes until the grains are cooked.
2. In the meantime, peel the carrots, garlic and onion and chop them using Braun's MQ 7 all-in-one food processor attachment and its cutter insert.
3. Separate the chilli from the seeds, wash the halves and chop using Braun's chopper attachment (350 ml).
4. Heat the coconut oil in a pan, add the carrots, garlic, onion and chilli and sauté for 5 minutes.
5. Now add the tomatoes, chickpeas and coconut milk to the pan. Season everything with salt, pepper and curry.
6. Strain the rice in a sieve.
7. Wash the parsley and chop it finely using Braun's chopper attachment (350 ml).
8. Portion the curry onto plates and sprinkle with parsley.

This recipe was prepared using **Braun's MultiQuick 7 hand blender** with its all-in-one food processor attachment and chopper attachment (350 ml).
